Subject: Deployment Packages [SEC=UNCLASSIFIED]

UNCLASSIFIED

Steve,

I am writing this email in regards to the packages you have sent to me and my team over the past week. We all appreciate the effort that you and your team have done in making life just a little more bareable whist members of the defence force are deployed overseas. In the letter you send with the package it states 'little care package', please dont under estimate how big an affect this small package has ... many smiles from all ... in particular those members that dont have much in the way of family, the support that you guys in the RSL provide is by no means small, so thank you.

Please pass on my special thanks to all pers involved in the distribution and compiling of these gifts.
