

26 January, 2012

G'Day Digger,

On behalf of the committee and members of the Highfields RSL sub branch we hope that this small care package will provide you with some enjoyment.

A number of our lady members and other ladies from Highfields have knitted the skull caps that we trust will provide you with some relief from the winter cold.

We would also like to extend our support and well wishes to you and your brothers and sisters in arms for the job that you are doing. Please be aware that the RSL is well aware of the difficulties that you face each day and also the hardship and worry that your families face each and every minute you are away. You have our heartfelt graduate along with our full and never ending support.

I invite you to attend a sub branch meeting on your return to Australia so that we may meet you in person and allow us to buy you a beer or three and if you wish, you may share some stories from your service overseas with us. I would also welcome any comments or suggestions that you may have on the package you have received so that we may improve on others that we send. Also if there is anything that we may send you or if we can provide you with any service during or after your deployment, please contact me personally by email at [president@highfieldsrsl.org](mailto:president@highfieldsrsl.org) or by phone to either 4696 8862 or 0403910087.

From us old soldiers to you we say, "Keep your heads down and your powder dry".

Yours sincerely,

  
Steven Dudley  
President
